

Bank of Bahrain and Kuwait B S C

Dear Customer,

Thank you for choosing to do business with BBK. Due to global COVID-19 pandemic, there is a great deal of uncertainty in the markets and in the current situation, BBK highlights the need for clients to carefully consider any new product and independently review risks at this highly sensitive and volatile time. We caution our clients to remain focused and vigilant in these times as the human, economic and financial impacts of this pandemic have already been huge, and it is not yet clear how quickly the situation will be brought under control and normal economic activity can resume.

We once again advise to do safe banking and stay safe. Our corporate client may please contact respective RMs.
